

# How to Trade GEOD Using Phantom and MetaMask Wallets

## Prerequisites

- A bank account or credit card

## 1. Create a Coinbase Account

Link: <https://www.coinbase.com/>

1. Click Sign Up → choose Personal Account
2. Enter your email, password, phone number, and full name
3. Complete the About You section
4. Verify your identity
5. Go to Settings → Payment Methods → Add a Bank Account
6. Coinbase uses Plaid to securely link your bank
7. Log in to your bank through Plaid → click Share Data
8. Once linked, you can now buy crypto

## 2A. Create a Phantom Wallet (Solana)

Link: <https://phantom.com/download>

1. Install Phantom extension
2. Click Create a New Wallet

3. Select Create a Seed Wallet
4. Write down your 12-word recovery phrase
5. Store it safely offline

## **2B. Create a MetaMask Wallet (Polygon)**

Link: <https://metamask.io/download>

1. Install MetaMask extension
2. Click Create a New Wallet
3. Click create a secret recovery phrase and set a password
4. Write down your Secret Recovery Phrase
5. Add Polygon Mainnet
6. MetaMask → Network Dropdown → Add Network → Choose Polygon

## **3. Buy SOL on Coinbase**

1. Open the Coinbase app
2. Click Buy
