

How to Buy GEOD Using the Solflare Wallet

A step-by-step visual guide

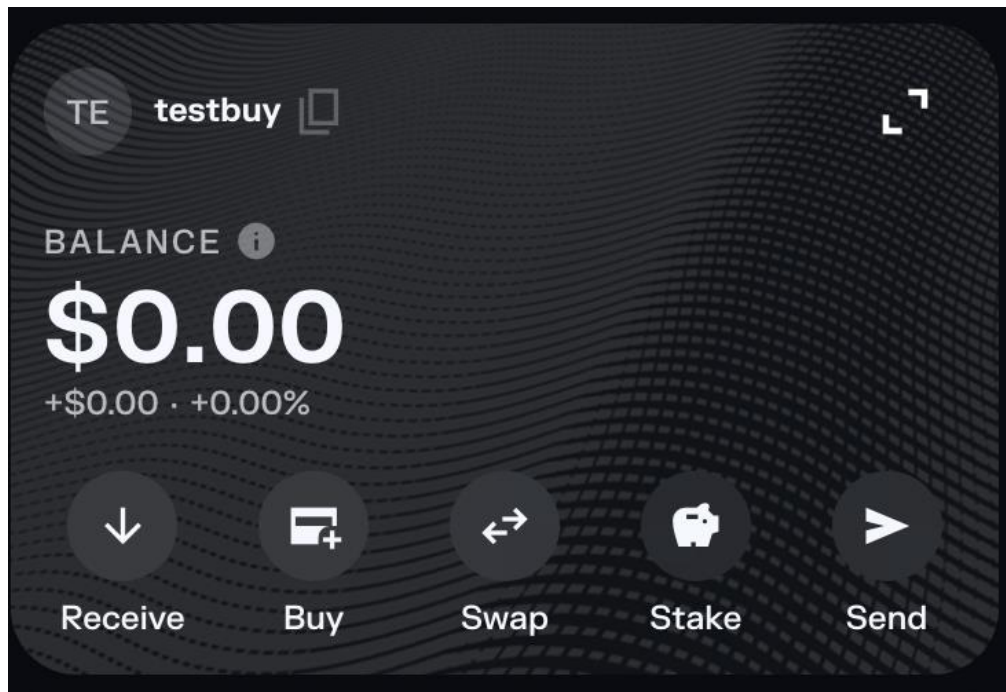

Before You Begin

Make sure you have the following:

- **Solflare Wallet** installed (Chrome extension or mobile app).
- A **Coinbase account** with a payment method added.
(This guide uses Coinbase Pay for purchasing SOL.)

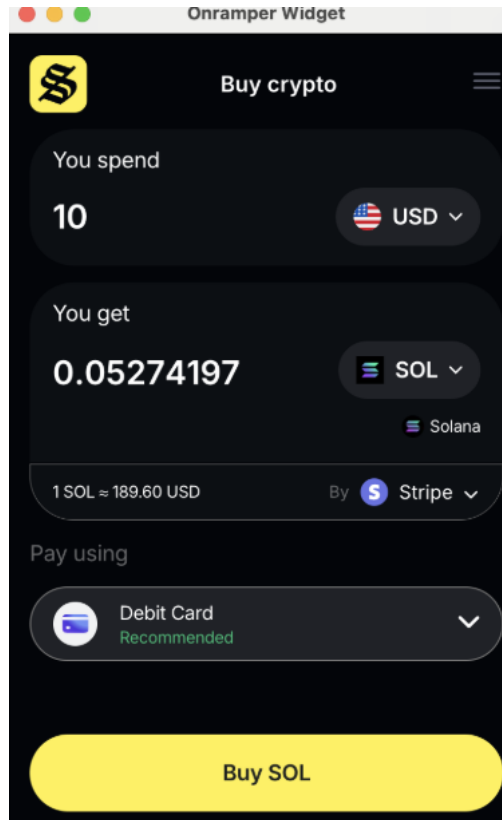

STEP 1 — Open Solflare Wallet

- Open the Solflare Chrome extension.
- Click “**Buy**” to begin the purchase.

STEP 2 — Enter the Amount of SOL to Buy

- Choose how much you want to spend in USD.
- Example: **\$10 USD** → **0.0527 SOL**

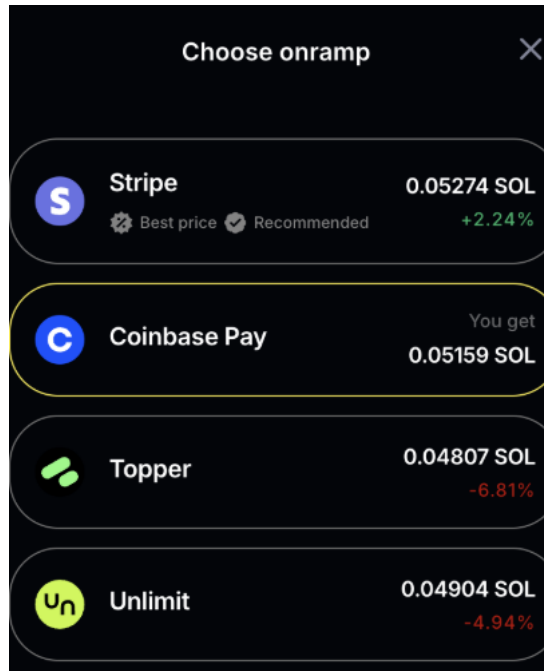

The screenshot shows a mobile application window titled "Onramper Widget" with a dark theme. At the top left is a yellow dollar sign icon, and at the top right is the text "Buy crypto" next to a hamburger menu icon. The interface is divided into several sections:

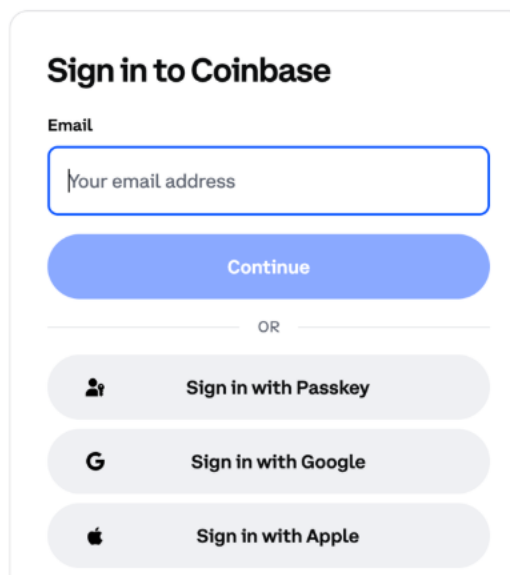

- You spend:** A rounded rectangle containing the number "10" and a dropdown menu showing "USD" with a US flag icon.
- You get:** A rounded rectangle containing the number "0.05274197" and a dropdown menu showing "SOL" with a Solana logo icon. Below this is the text "Solana".
- Exchange Rate:** A rounded rectangle containing the text "1 SOL ≈ 189.60 USD" and "By" followed by a "Stripe" logo and a dropdown arrow.
- Pay using:** A rounded rectangle containing a "Debit Card" icon, the text "Debit Card", and "Recommended" in green, with a dropdown arrow.
- Buy Button:** A large yellow rounded rectangle at the bottom with the text "Buy SOL".

STEP 3 — Change Payment Provider

- Click the dropdown where it currently says **Stripe**.

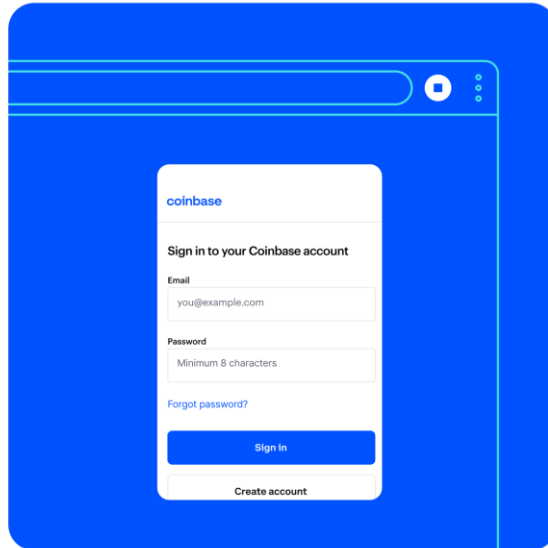

- Choose **Coinbase Pay** from the list, then click **“Buy SOL.”**
- You will be redirected to the Coinbase login screen.

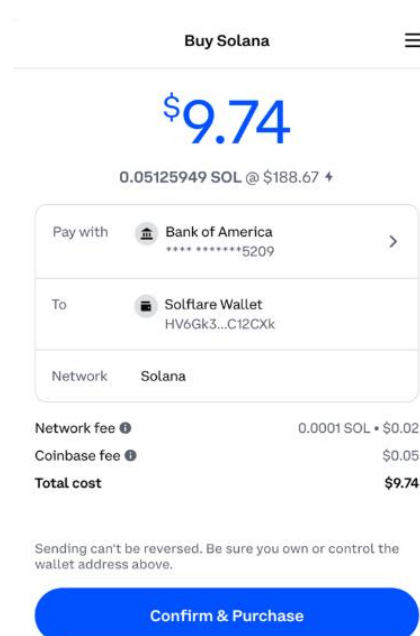

STEP 4 — Log In to Coinbase

- Sign into your Coinbase account to continue the purchase.

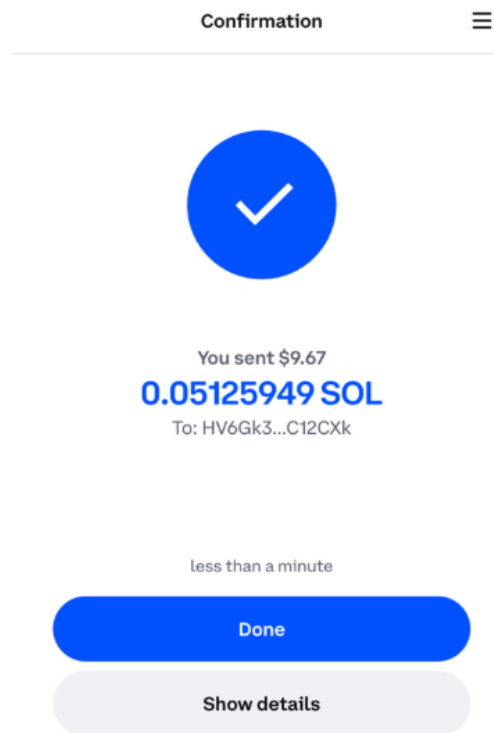

STEP 5 — Confirm Purchase

- Review the payment method, wallet, and SOL amount.
- If you have already setup payment methods, the default one will be selected.
- Click **“Confirm & Purchase.”**

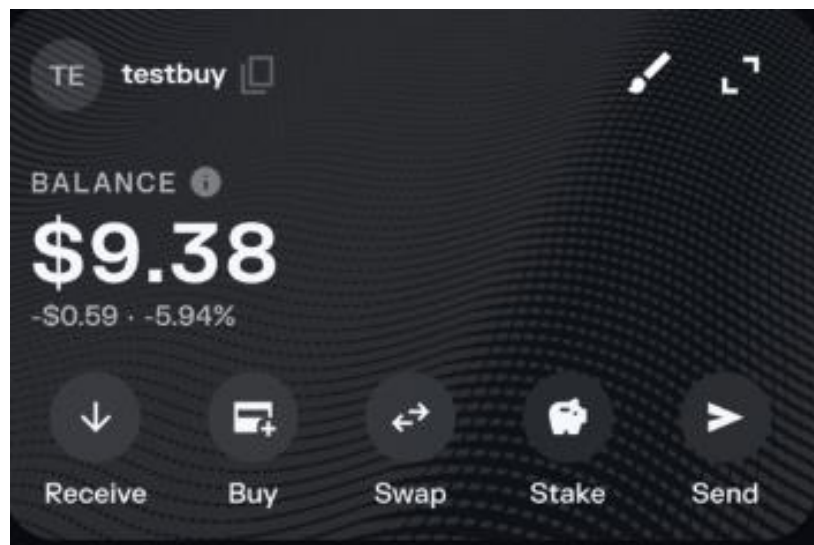

STEP 6 — Purchase Confirmation

Coinbase will show a confirmation screen once the SOL transfer succeeds.

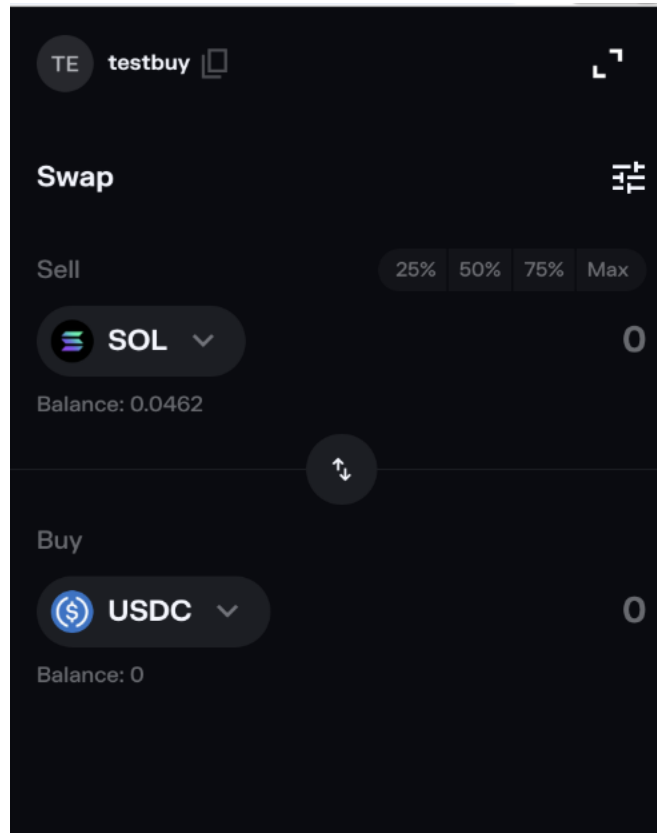

STEP 7 — Return to Solflare

- Go back to your Solflare wallet — your **SOL balance should now appear**.

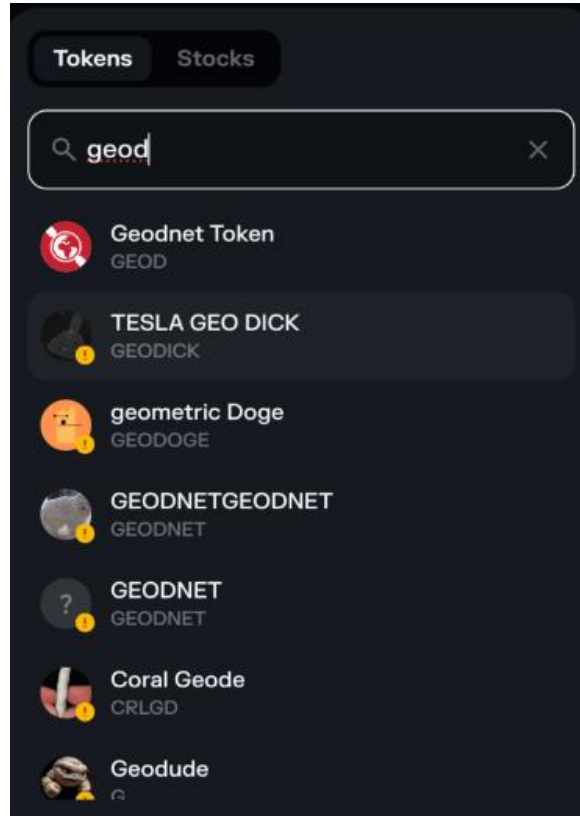

STEP 8 — Open the Swap Tool

- Click “**Swap.**” SOL will be the token you are swapping. You will see this screen.

STEP 9 — Search for GEOD

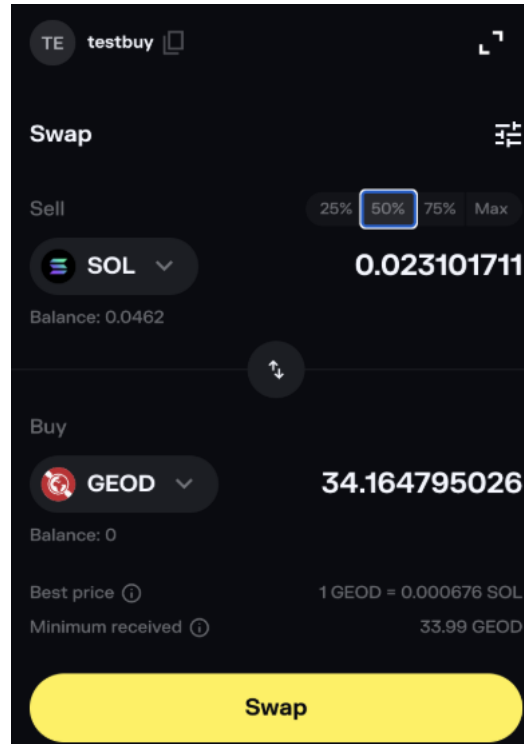

- Click the token dropdown in the Buy section (e.g., USDC → change token). Search **“GEOD.”**

- Select **GEODNET Token (GEOD)**.

STEP 11 — Enter the Amount of SOL to Swap

- Choose how much SOL to convert into GEOD.
- ⚠️ **Leave a small amount of SOL for gas fees** — do not use your full balance.

- Click **“Swap.”**
- The swap should be very quick.

STEP 12 — You're Done!

Your GEOD tokens will appear in your Solflare wallet within seconds.
